CTF-B4T4C

COMPACT BATTERY AND TIMED POWER FOR IT AND COMMUNICATIONS

The CTF-B4T4C is built for amber warning fleets, undercover vehicles, utility fleets, and other specialty upfits running mobile computers, routers, cameras, two-way radios, and warning equipment. Its compact enclosure installs easily in consoles and electronics trays, making it a simple way to add dedicated battery-hot and timed power to IT and communication installations.

PRODUCT FEATURES:

The CTF-B4T4C provides four battery-hot circuits and four timed circuits, supporting up to 100 amps of total load. An integrated timer offers 16 timed intervals, Infinite Mode, low-voltage disconnect, and diagnostic LEDs to protect the battery and simplify troubleshooting. A momentary input instantly activates critical communication equipment, and a reset function restarts onboard IT devices without cycling vehicle power. The CTF-B4T4C replaces the prior-generation CTF-B4T4G with an updated enclosure.

SPECIFICATIONS:

- 8 Fused Outputs
- 4 Battery Hot, 4 Timed Hot circuits
- 100A Max Total Load, and 30A max per circuit
- Timed Hot circuits: 75A max combined load
- Integrated Voltage Sensing Delay Timer
- 16 Timed Intervals and Infinite Mode
- Low-Voltage Disconnect at 11.00 or 11.75 VDC
- Reset Function
- Instant Activation & Ignition Override
- Diagnostic LEDs
- M6 Ground Stud
- Dimensions: L 6.006”, W 3.570”, H 1.577”
- Weight: 0.536 lbs.
